**Importance:** High

Respected Judge and all other parties:

This is in response to SBC Illinois to my original Motion for Extension of time.

Here are my basis for granting me extension of unlimited time:

1. The example Avenew, Inc v. Illinois Bell Telephone Co. Dkt. No. 98-0876, 2--2 Ill. PUC Lexis 489, at \*7 (May 22, 2002) consist of artificial entity which is incorporated. It means that the company have resources and more than one person who deals with the issue. However, in my case, I am individual representing as prose and whole availability depends on me. Recently, on October 19th, 2004 I was in Emergency Room of County hospital again with complain of chest pain and tooth aches. Under such circumstances, I pray to JUDGE to offer me indefinite extension of time. I will contact all related parties soon after I am in position to manage myself.

ALTERNATIVELY

If the request is unacceptable, how does January 17th, 2005 sounds for meeting the deadline ?

2. I pray to the judge for not to allow SBC of disconnection / interruption of telephone lines because looking at my health condition, such decision may affect my communication with doctors, relatives or friends. I am single person and no one lives with me. If telephone line is disconnected, I will loose contact with the whole world and no one can contact me either. My health may worse more specially when I am dealing with depression.

3. In reference to payment, the amount SBC shows is full amount and have not considered buffered charges which does not apply to me at all. Additionally, this is not final verdict and I request my defendant to tell me if there are examples s/he have where the case completely took U turn when filing reply to the decision? Therefore at this stage it is not proper to demand any payment for the issue. My making payment may be looked as my defendant's victory in the case. Damages which are done to me exceeds far more than the money the defendant's total.

Sincerely,

Rajesh B. Shah
